

Relevant Experience

April 2022 - present | Web Developer

SGY Agency

- Introduced Vue for developing Engagement Tools (ETs) with an improved asset building process.
- Lead the development of a financial API using Serverless technology which is now used for all ETs.
- Introduced a modern Bitbucket deployment pipeline to reduce bottlenecks and improve efficiency.
- Actively involved in the improvement / maintenance of various CMS platforms for large and small clients.
- Re-skinned and upgraded SGY's website after merger to promote the new brand and core offerings.
- Consolidated staging sites to a reseller WHM server and migrated repositories to Bitbucket, saving the company on hosting and enabling them to move away from the expensive Beanstalk VC.

Nov 2019 - April 2022 | Front End Developer

DCode Group

- Collaborated with stakeholders, back-end developers and designers to build custom solutions that meet business requirements and goals.
- Developed app interfaces and custom CMS websites using SCSS, Vue and Laravel.
- Delivered features based on spec docs and applied bug fixes reported from error recording platforms (BugHerd, Kanopi widget).
- Lead the development of the company preset package to scaffold front end components with semantic conventions to speed up development.

Oct 2018 - Nov 2019 | Front End Designer / Web Developer

Blick Creative

- Developed WordPress themes with Foundation and Bootstrap following concepts created in-house.
- Created and tested EDMs ensuring layouts display correctly on email clients programs and devices.
- Liaised with account managers to provide quote estimates, define project scopes and milestones.

April 2018 - Oct 2018 | Developer

IE Digital

- Created the Silicon Block website to promote IE's agile workshops; integrating a CRM services to manage attendees and the Eventbrite API to display dynamic event data.
- Worked on multiple projects using React and an internal CSS library.

Dec 2016 - April 2018 | Web Developer

PharmaDeal

- Included a secure payment gateway and upgraded the business to eParcel / ReadyToShip to prevent fraud and revenue loss while improving dispatch services.
- Developed and implemented SEO strategy by including a content style-guide.
- Designed EDMs, eMagazines and banners to promote store offerings on multiple platforms.

March - Dec 2016 | Web Developer Internship

Crystal Web Designs

- Developed responsive Magento and Wordpress themes following design concepts.
- Provided high-quality customer service for accounts payable, domain, web and email hosting.

Education

2015 Masters of Multimedia

Swinburne University, Hawthorn

2010 Bachelor of Multimedia & Digital Arts

Monash University, Caulfield Campus

2005 Advanced Diploma of Multimedia

NMIT, Greensborough Campus

Skills summary

Technical

- Experience building re-usable components with NPM extensions and contemporary bundling tools
- VC experience using Github and Bitbucket leveraging GitFlow
- Cross browser and OS testing / bug fixes using Browserstack
- EDM development in popular campaign services
- Graphic design of banners and multi-page documents

Professional

- Strong problem solving expertise working on Agile projects
- Attention to detail with working from briefs and user stories
